

Peer Editing Considerations for Written Task 1

For the creative piece itself (800-1000 words):

- Clearly does what the rationale set up/promised?
- In your view, effective emulation of the text type?
- Has something interesting/enlightening/true/non-trivial to say *about language* (especially with reference to the chosen Suggested Topic)?
- Easy to read and follow; organized and coherent?
- Language and style showcase this student's English writing ability; clear and eloquent, assured and effective?
